## Europe

Certain of our UK-regulated entities previously (until December 31, 2020) had to comply with a range of EU regulatory measures and are required to comply with EU law, which was transposed into UK legislation under the European Union (Withdrawal) Act of 2018 ("EUWA"). These measures include the Markets in Financial Instruments Directive ("MiFID II"). MiFID II regulates the provision of investment services and the conduct of investment activities throughout the European Economic Area ("EEA"), and the UK version of MiFID II (implemented through UK primary and secondary legislation under the EUWA and FCA rules) regulates the provision of similar services in the UK. MiFID II establishes detailed requirements for the governance, organization and conduct of business of investment firms and regulated markets. It also includes pre- and post-trade transparency requirements for equity markets and extensive transaction reporting requirements.

The EU's Alternative Investment Fund Managers Directive ("AIFMD") was transposed into EU member state law. AIFMD regulates managers of, and service providers to, alternative investment funds ("AIFs") that are domiciled and offered in the EU and that are not authorized as retail funds under the UCITS directive discussed below. The AIFMD also regulates the marketing within the EU of all AIFs, including those domiciled outside the EU. Compliance with the AIFMD's requirements may restrict AIF marketing and imposes compliance obligations in the form of remuneration policies; capital requirements; reporting requirements; leverage oversight; valuation; reporting stakes in EU companies; the domicile, duties and liability of custodians; and liquidity management. The UK has adopted the AIFMD rules principally via secondary legislation FCA rules.

UCITS are investment funds regulated at the EU level under the UCITS Directive V. UCITS are capable of being freely marketed throughout the EU on the basis of a single authorization in a member state — so-called passporting. UCITS covers a range of matters relating to UCITS, including the fund structure and domicile of UCITS, service providers to UCITS and marketing arrangements. In addition, UCITS funds are distributed in other jurisdictions outside the EU where marketing and sales are governed by local country-specific regulations. The UK has adopted the UCITS rules through the framework of secondary legislation and FCA rules, although UCITS established in the UK cannot benefit from the passporting arrangement described below.

Following the UK's withdrawal from the EU ("Brexit") on January 31, 2020, the UK and the EU entered into a transition period ("Transition Period") during which directly effective EU law continued to apply in the UK, and the UK continued to be treated as a member state of the EU. The Transition Period ended on December 31, 2020, and since then, directly effective EU law is no longer applicable in the UK, although the UK has retained certain EU legislation governing financial services and the EEA. As a result of the end of the Transition Period (irrespective of the retention of EU law under the EUWA) is that financial services firms authorized in the UK lost their passporting rights. "Passporting" is an arrangement under which firms authorized in an EU member state (or a non-EU state that is an EEA member) can rely on authorization in their "home" EEA member state to provide regulated services throughout the EEA. Because UK-authorized firms can no longer passport their services throughout the EEA, the extent to which UK-authorized firms can continue to provide services to customers in the EEA will now be dependent on regulatory requirements and regulators' expectations in the individual EEA member states in which the UK-authorized firm wishes to provide services. Discussions between the EU and UK regarding equivalence of the EU and UK regulatory frameworks are ongoing. The way in which UK firms provide services in EEA member states may change depending on the outcome of these discussions.

## Luxembourg

In Luxembourg, our subsidiary, Janus Henderson Investors Europe S.A. ("JHIESA"), is authorized and regulated by the Commission de Surveillance du Secteur Financier as a UCITS management company, with additional regulatory permissions to provide portfolio management services regulated under MiFID II. JHIESA has established six branches: Italy (Milan), Germany (Frankfurt), Spain (Madrid), France (Paris), the Netherlands (Amsterdam) and Denmark (Copenhagen). The main objective of these branches is the distribution of JHG products within the EU. Since September 2022, the Danish branch has also made use of JHIESA's extended portfolio management permissions under MiFID II. JHIESA has been appointed management company of the following funds and fund structures:

- Two UCITS umbrella funds, incorporated under the laws of Luxembourg in the form of a SICAV;
- One UCITS umbrella fund, incorporated under the laws of Ireland in the form of an umbrella investment company with segregated liability between funds with variable capital; and
- One AIF umbrella fund, incorporated under the laws of Ireland in the form of an open-ended unit trust.

## Management fees

Management fees increased \$257.6 million during the year ended December 31, 2024, compared to the year ended December 31, 2023, primarily due to an improvement in average AUM.

Management fees decreased \$99.3 million during the year ended December 31, 2023, compared to the year ended December 31, 2022, primarily due to a decline in average AUM.

Average net management fee margins, by capability, consisted of the following for the years ended December 31, 2024, 2023 and 2022:

### Performance fees

Performance fees are derived across a number of product ranges. U.S. mutual fund performance fees are recognized on a monthly basis, while all other performance fees are recognized on a quarterly or annual basis. The investment management fee paid by each U.S. mutual fund subject to a performance fee is the base management fee plus or minus a performance fee adjustment, as determined by the relative investment performance of the fund, over a 36-month rolling period, compared to a specified benchmark index. Performance fees by product type consisted of the following for the years ended December 31, 2024, 2023 and 2022:

|                                        | Year ended December 31, |               |                  | 2024 vs.    | 2023 vs.    |

For the year ended December 31, 2024, performance fees increased \$65.3 million compared to the year ended December 31, 2023, due to an improvement in the performance of U.S. mutual funds, SICAVs and absolute return funds and other funds.

For the year ended December 31, 2023, performance fees increased \$15.8 million compared to the year ended December 31, 2022, due to an improvement in the performance of absolute return funds and other funds primarily driven by performance fees generated from a certain fund. This increase was partially offset by a decline in segregated mandates due to the relative performance of certain funds being below the established HWM.
